ANTANKER CATALOGUE

Established in 2012, Hangzhou Antanker Trading Co., Ltd is a leading trader of lawn mower accessories and outdoor small engine accessories in China since 2012.

Adhering to the concept of bringing high-quality made in China accessories to global users, our team dedicated to outdoor power equipment accessories for more than ten years, established relatively complete supply chain system domestically, and established strategic partnerships with many well-known domestic equipment and accessories manufacturers. At the same time, we kept developing overseas markets constantly, established some market influence in developed countries in Europe and the United States.

Antanker started with small engine parts, and established mature supporting and development system in this field. As the company grows, we have gradually focused on the field of garden machinery, especially lawn mower accessories. The main products involve lawn mower blades, spindles, belts, pulleys, wheels, PTO clutches, etc. We also invested in factories to develop products, like spindles, wheels, and have gained advantages in pricing and shipping.

Antanker is one of the first Chinese members that joined the American Outdoor Power Equipment Aftermarket Association (also known as OPEAA, now renamed as OPPAA), and we keep close communications with related companies and celebrities in the US industry. Also, we are a member of the China Forestry Machinery Association (CNFMA), we actively participate in the association activities and help the development of the association. With the in-depth exchange of our industry information, we have gradually established a relatively complete industry cognition, at the same time we developed our unique industry perspective, looking forward to helping the long-term development of the industry.

We will unite many high-quality Chinese manufacturers, continuously optimize the supply chain system, and bring high-quality products and services to customers all over the world.
